#### FRANK HOUGH SAYS:

Yes, sir—February is a great month for good beginnings.

\* \* \*

This is the month when Washington and Lincoln got their start.

A good beginning for many a success has been a good appearance.

The beginning of a good appearance is good shoes.

Now, there are shoes and shoes and Stetsons!

Because Stetson's Shoes are different from other shoes, I don't like to print pictures of them. I never met an artist yet who could draw a Stetson's Shoe as well as it looks on your foot.

If you don't "Step in Stetson's" yet, this is a good month for you to begin, because Stetson's Shoes are a good foundation for you to stand on.

They look well-fit well-wear well.

When you wear Stetson's, you create the right impression, in comfort.

The mid-winter sale of Shoes and Hosiery continues through February.

## STREET QUICKER THAN BOULEVARD IN NO. SIDE TEST

#### Surprising Result Proved in Evanston Trips.

As the last of a series of automobile test trips to ascertain in which direction out of Chicago to a distance of seventeen miles traffic conditions permitted the best average time, a retest was made in the case of Central

retest was made in the case of central street, Evanston.

Using the boulevards largely as the preferred route between Evanston and the county building, six trips showed that fifty-one minutes was average time. It was disclosed that the twelve miles to Roscoe street, inbound, reulies to Roscoe street, inbound, re-uired from twenty-seven to twenty-ine minutes. From Roscoe street to be county building, five miles, it took com twenty-two to twenty-four min-ter. Thus, the tests show, it takes early as much time to go the twelve illes from Central street, Evanston, o Roscoe street, as it does to go the maining five miles from Roscoe treet to the county building.

The results were surprising. By leaving the boulevard north of Chicago avenue, it was found that from five to ten minutes could be cut from the schedula. It also shows less mileage. The normal mileage shown by speedemeter to the point of destination was seventeen miles. By leaving the boulevard the distance is sixteen and one-half miles.

A Still Quicker Route.

The second experiment was by way of North avenue at the grade separation to Dearborn and straight down that street to Wacker drive. Then a turn was made to Clark street and on Clark to Bandolph. The time for this route is forty-one minutes, and repetition of the tour checked to within a minute.

n a minute.

The conclusion is that with La Salle street improved or with Dearborn street in a little better form as to proceed and pavement the north line of Evansten is a normal forty minutes away from the county building and a possible thirty-two to thirty-five ninutes, if one is hurried. This is considerably faster than any other orm of transportation in practical use in Chicago.

"The La Salle," a suite typical of furniture in the period of Louis XVI, is one of the sale's finest values. Walnut and gumwood, beautifully matched and finished, are used chiefly. The backs of the pieces are an all-mahogany veneer, and there are overlays of butt and crotch walnut and maple burl. There are decorations and illuminations done by hand. The bed, chest and dresser are now \$290.

Representatives of a large sample line of reed and fiber furniture in which there are hundreds of pieces, and no duplicates, are these three pieces. They are of stick reed: the davenport, \$110; the large armchair, \$50; the table, \$27.50. The seat cushions are spring filled and the back pillows are very soft. The finish is a decorated Orleans brown.

All metal furniture is included in the sale. The seel bed shown here with the solid panel comes in a valuat finish for \$19.75. The 40-inch dresser, to match the bed, is sharply reduced to \$44.75.

#### UNUSUALLY GOOD LIVING ROOM VALUES ARE GROUPED

On the North State Street Bridge we have grouped a number of exceptionally fine living room furniture values. Pieces greatly reduced in price will be found here. In fact this is, for the period of the sale, a place where our patrons will find super-bargains in good living room furniture. Ask to be directed to the North State Street Bridge on the eighth floor.

# he Semiannual Sale of FURNITURE

Begins Today!

# THOUSANDS OF PIECES ARE SPECIALLY PRICED— THOSE ILLUSTRATED ARE TYPICAL

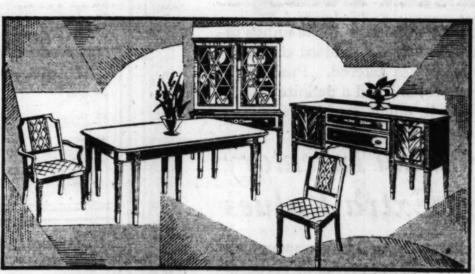

DURING this Semiannual Sale which continues until the end of February, every piece and suite in our entire eighth floor stock is specially priced. Seldom is so great an event held by any store, for nowhere, we believe, can you find so much furniture for every room in the house. From the manufacturers' Spring lines, just recently opened to the trade, we have culled the best the industry offers, and added it to

our already enormous stocks. It is our belief no householder who needs furniture should fail to visit us now. This sale is more important than usual, for we are offering more quality furniture than ever at prices far lower than regular. Aggressive merchandising, begun months ago, and our close con-

nections with important manufacturers have made it possible for us to assemble for this event a collection of furniture such as we have never displayed before. There is considerably more than one square block full of furniture. The pieces you see on the floor are only samples of the great warehouse reserve stocks that stand back of this great sale. And it is all conveniently located on two adjacent floors—all of the eighth and part of ninth—with competent salespeople to aid in making satisfactory choices.

Living room, dining room, bedroom, sun room and porch furniture; antiques, importations and reproductions; office furniture; springs, mattresses and pillows. There are thousands of pieces, with only a few described in this advertisement.

Here you will find pieces from Italy, Spain, France, England and Belgium. Here is fine furniture from the foremost craftsmen of America—furniture reflecting the influence of mas-

ter designers who worked wonders in centuries past. And all of these things

are of Field quality, and conform to Field standards, reflecting the consummate care in selection which has given our furniture sections the fine reputation which they now enjoy. Good furniture, of the kind found in our stocks, is always a permanent investment.

The sofa and chair, with solid mahogany frames and reversible cushions of linen frieze, and covered with mohair, are \$238. . . The mahogany and gumwood Governor Winthrop desk is \$68. . . The mahogany and gumwood octagonal table is \$32.50. . . . The damask covered chaise longue is \$42.50. . . . And the good-looking oval, marble top table is \$58.

Our staff of interior decorators, skilled in the designing and execution of interior decorations, is at your service throughout this sale. Any floorman or salesperson will direct you to them. Or you may go directly to their offices in the Decorating and Furniture Galleries on the ninth floor. Their service is at all times given without charge, and we are particularly anxious to have our patrons make good use of it during this sale.

The latest defiance of the administration by senate was its approval on Friday of the Swanson amendment pro-viding for the creation of a joint con-centers continues abundant and rates gressional committee to investigate the part played by the navy department in the causes of the loss of life in the sinking of the submarine S4. That the house also cannot be deled upon to support the administration was shown when it passed the tax reduction bill with amendments proposed by the Democrats. The amendments were seriously objected to President Coolidge and Secretary the Treasury Mellon.

Farm Situation Chaotic.

The administration has obtained a breathing spell in the case of tax legislation by forcing postponement of action by the senate finance com-mittee until after March 15, when the ndication of what revenues will be

luring the present year.

The farm relief legislative situation is chaotic. If those who supported the McNary-Haugen bill in the last congress maintain the position of insisting upon that measure or none, there are plenty of votes to send it to the President, who will again veto it. A somewhat similar situation pre-vails on flood control, the merchant marine and, to a lesser degree, on the naval program.

Since the War, women have become important executives in many great businesses. The Nineteenth Amendment will never be repealed. Women will never leave business. Business could not now get on without them. Women have become citizens. Women are people.

Today, families are small. The kitchen has become, in urban communities, the kitchenette and delicatessen. Woman talks man's language—even when exasperated! She works at a desk next to his and "borrows" his cigarettes. She drives her own car on the most crowded thoroughfares.

She engages in his sports. She runs for office and gets elected. She expresses her opinions and makes them heard and felt. She writes fiction which would slay Comstock if he weren't already deceased. She takes the attitude that having been made of man's rib his interests and hers are identical. Her motto is "I wanna"

In short, women today are no longer the segregated sex.

When she wants to be interested, instructed or amused, where does she go? To the same theatre and movie that men attend; to the same dance, to the same lecture, to the same university, to the same football game. Also (alas!) to the same barber shop.

She reads the same books and the same newspapers that men read. Why then shouldn't she read the same magazines?

The answer is: She does!

# Seputhe new 1015 Gardner 95

The most powerful stock car in America. Speed! will bring an entirely new experience in pliant, -name your own! Not only is it superior in numerical developed horsepower, but we believe, in unusual performance and in actual road use as well.

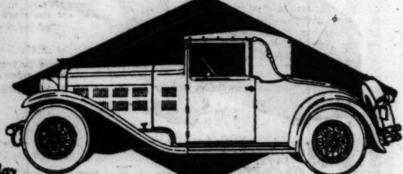

Ownership of such a distinctively different car will naturally be limited to the few who want such superlative power and unusual performance. And to those few, the New Gardner 95

supple power.

But there is more than abundant power and unusually brilliant performance to commend the New 95. It is notable also for the modern flair of its new lines its colorful custom body designs—and a new order of interior treatment.

Each of these contributes its share to the exclusive charm of the Gardner Eight-in-line that distinctively different motor car.

The New Gardner 95 at \$2095 to \$2495 is one of three complete series of Eights-in-line. 15 custom-designed body styles are available in these three series. Prices of Series 75 and 85 models range from \$1195 to \$2095, f.o.b. factory.

One of the country's leading manufacturers of fine rugs has devoted

three years to the development of an entirely new type of rug. During

recent months many of the patterns in experimental weaves and com-

binations of colors have been produced and we have been able to secure

the entire assortment on a basis that allows us to offer them at a fraction of the prices they would normally command. The collection comprises

many hundreds of rugs of which no two are alike. All are of a deep,

luxurious pile and in character of design and color are very similar to

Oriental rugs. We believe they are values seldom, if ever, duplicated.

#### An Event of Great Importance

Because of the tremendous importance of this event, and the enthusiastic response, we believe it will bring, we have devoted a very large selling space to it. All of the rugs in the purchase are displayed here, and every one of them is different from the others in some respect. Because of the large floor space they occupy, it is necessary for us to sell them rapidly. And that we are certain we will do, for values like these are so rare that even this large stock cannot last long.

Kicks Tuneless Piano in Restaurant; 3 Shot in Fight

Boward Ryan, 2256 Palmer street, dropped a nickel yesterday in an electric plane in the restaurant of George Magelis at 2759 Armitage avenue. The piane failed to play and Ryan kicked it. Margelis grabbed a lead pipe and a revolver and advanced upon Ryan.

Two other youths, Martin Larson, 1819 North Albany avenue, and John Hickey, 2136 Evergreen avenue, went to Ryan's assistance, and when the fight was over Ryan had been shet in the hip, Larson in the left forearm, and Hickey in the right hand. The wounded youths were taken to St. Elizabeth's bospital and the restaurant keeper was locked up.

# CRITICS SAY

this New Oldsmobile is

THE FINE CAR OF LOW PRICE

The very appearance of this new and larger Oldsmobile Six stamps it, at a glance, as two years ahead—separate and apart from even the best of cars at anywhere near its price.

Its every feature gives evidence that this car makes available to all, sources of thorough satisfaction that have heretofore identified high-priced cars.

And as further conclusive recognition of what Oldsmobile has achieved by its policy pledged to progress, automotive critics now add their praise.

"Two years ahead both in appearance and mechanically," says H. F. Blanchard of Motor.

A. F. Denham of Motor Age says, "New in every respect... gives an impression of belonging in a much higher price class."

TWO-DOOR 925 F.O.B. LANSING

"From experience in actually driving the new Oldsmobile, it may be definitely stated that Oldsmobile has made an important advance in the art of car building," says Walter C. Boynton of Automotive Daily News. "In appearance and performance, in quietness of operation, in comfort, convenience and road qualities, it represents a distinct achievement!"

Sweeping, positive expressions—based on actual facts of design and the actual experiences of these men with this new Oldsmobile.

They know, because they have compared by their own high standards of judgment, that this car is smart and voguish not only in design but in the whole spirit of its styling and engineering.

They know, because they have driven it, that if it is speed you want, this new Oldsmobile will give you speed . . . speed to spare.

They know, because they have enjoyed them, that this new Oldsmobile embodies qualities of riding comfort, of smoothness, of silent operation which are a positive revelation.

They know... as you will know when you have investigated as they have... that this new Oldsmobile is indeed The Fine Car of Low Price.

C. athletic commember of the I. A. C. athletic committee, announced that Peltzer finally had decided upon the three meets in which he wants to compete in this country. The German has selected the Millrose games in New York on Thursday, the I. A. C. meet in Chicago on Feb. 10, and the Knights of Columbus event in New York on Feb. 29.

May Race Hahn Later.

Dr. Peltzer, who will be allowed to compete in only three races in this country by the controlling body of amateur athletics in Germany, made his selection late Saturday night and immediately wired his decision to the foreign relations committee of the A foreign relations committee of the A. A. U. in New York. As two of the German's appearances will be in New York, the committee is expected to ap-prove Dr. Peltzer's selections.

In agreeing to run in the Millrose games on Thursday night, Dr. Peitzer made it plain that he will not meet Hahn and that if he is defeated the event will be declared no race. The large outward movement this year, with a fair export trade and indications that Europe will have to buy its supplies in the United States for the next two months, are offsetting factors against the increased primary movement over last year. First Mortgage Hydro-Electric 61/2% Sinking Fund Gold Bonds

To be Dated Pebruary 1, 1928

To Mature February 1, 1953

Staking Fund Colculated to Retire Entire Issue by Metarity

GENERAL: Terni-Società per l'Industria e l'Elettricità, organized in 1884 and well known throughout Europe as "Terni", owns and operates extensive hydro-electric and industrial properties which place it among the

HYDRO-ELECTRIC PROPERTIES: The properties now in operation include four hydro-electric power stations located in the Apennine Mountains about sixty miles northeast of Rome, having a combined generating capacity of 86,200 kw., and reserve equipment with a capacity of 6,800 kw.

To provide adequate reserve facilities for its present business and also to meet the increasing demand for current, the Company is building a new hydro-electric plant which will have an initial generating capacity of 105,000 kw. and in addition, a subsidiary company, Società Elettrica dell' Alto Nera, which is over 98% owned, has under construction a plant with an initial generating capacity of 9,000 kw. The initial installations of both plants are expected to be completed and in operation on or before September 30, 1928.

SECURITY: These Bonds, in the opinion of counsel, will be a direct obligation of Terni-Società per l'Industria e l'Elettricità, secured by First Mortgage on the Company's hydro-electric properties described above, including the new work under construction, subject only to the hen securing Lire 48,660,351 (\$2,561,071) principal amount of existing funded indebtedness. The Company will covenant with the Trustee to retire such indebtedness by August 10, 1928, and for this purpose will deposit a sufficient sum in lire with Banca Commerciale Italiana, Milan. The Bonds will be further secured by First Mortgage on the hydro-electric plant now being constructed by Società Elettrica dell' Alto Nera. The engineer who has valued the properties has estimated that it will require at present prices \$2,000,000 for the additional work necessary to complete the new plants. Of this amount \$1,597,-000 will be deposited with Banca Commerciale Italiana Trust Company, New York, for such purpose and the balance is represented by advance payments made by the Company on machinery for these plants.

Additional Bonds not to exceed \$13,000,000 may be issued in one or more other series which may vary as to date, interest rate, denominations, maturities, redemption provisions, etc., under certain restrictions to be provided in the Indenture and summarized in part in the above mentioned letter.

EARRINGS: Consolidated earnings of the Company and subsidiaries for the years ended December 31, 1924 to 1926, after operating expenses of the parent Company, operating expenses and all other charges of subsidiaries and the deduction of earnings of subsidiaries applicable to minority interests, but before interest, income taxes, directors' participations, statutory reserves and depreciation of the parent Company, as certified by Messrs. Price, Water-house & Co. (converted into dollars at the approximate average rates of exchange for those periods) have been as follows: \$1,598,811 \$1,886,896 \$1,997,471

On the basis of earnings for the first six months of 1927, as prepared by Messrs. Price, Waterhouse & Co. without complete verification, the Company estimates that earnings for the entire year 1927 comparable to the above were in excess of \$2,000,000, or over 2½ times the maximum annual interest charges of about \$790,000 on its entire funded debt to be presently outstanding, including these \$12,000,000 Series A Bonds.

THEATRE REALTY COMPANY

First Mortgage Fee and Leasehold 61/2% Sinking Fund Gold Bonds

Due October 1, 1942

Price 100 and Interest

Dated October 1, 1927. Principal and interest will be payable at the office of Halsey, Stuart & Co., Inc., Fiscal Agent, in New York and Chicago. Interest will be payable October 1 and April 1, without deduction for the Federal normal income tax, not in excess of 2 % per annum. Bonds will be issued in coupon form in interchangeable denominations of \$1,000, \$500 and \$100, registrable as to principal only.

A letter of Mr. Jack G. Leo, Vice-President of Theatre Realty Company, is summarized as follows:

Location: The Theatre Realty Company, a wholly owned subsidiary (except for Directors' qualifying shares) of the Fox Theatres Corporation, has acquired real estate and leaseholds covering together the property having a frontage of 244 feet on the westerly side of Grand Boulevard and 360 feet on the southerly side of Washington Boulevard in St. Louis, Missouri. The plot embraces approximately 87,600 square feet, of which about 44,300 are owned in fee and the balance under a 99-year lease, having not less than 80 years to run. Upon a portion of these premises is located the six-story Humboldt Building containing stores and professional offices. Upon the balance of the premises, with the exception of a 50 foot strip in the rear of Grand Boulevard, the Theatre Realty Company is erecting the Fox St. Louis Theatre Building. The theatre will contain approximately 5,000 seats.

Security: These Bonds are secured, in the opinion of counsel, by a first (closed) mortgage on the land owned in fee, the lease-hold estate, the theatre building to be constructed thereon and on the completed Humboldt Building, more fully described in the Indenture, subject only to certain short term leases which affect portions of the Humboldt Building. On the basis of minimum appraisals of the land and theatre building, when completed and equipped, to be constructed there-on and of the Humboldt Building totalling \$7,501,000, these Bonds represent less than a sixty-one per cent loan.

The proceeds from the sale of these Bonds have been deposited as a trust fund with the Trustee as depositary. All funds disbursed by the Trustee for construction costs and carrying charges will be paid to the Theatre Realty Company only upon presentation of certificates of the architect and certified to by the supervising architect for the

Net Lease: The Fox Theatres Corporation has agreed to lease the property to be covered by the Mortgage for a period beginning with motion picture business

the completion of the building (in any event not later than September 1, 1928) and extending five years beyond the maturity of the Bonds, at an annual net rental to the lessor of \$591,500, the lessee to pay in addition as rental, all the ground rents, taxes, assessments, insurance, maintenance and operating cost on account of said property. Such rental payments will constitute an operating charge of the Fox Theatres Corporation. The maximum annual charges for interest on these Bonds will be \$295,750 and for principal and interest combined \$478,807.

Sinking Fund: The Mortgage provides for a sinking fund beginning April 1, 1931 and ending April 1, 1942, operating through Halsey, Stuart & Co., Inc., Fiscal Agent, to retire Bonds semi-annually at a rate sufficient to redeem \$2,458,500 principal amount by April 1, 1942.

Completion Guaranty: If the funds received by the Theatre Realty Company through the sale of these Bonds and deposited with the Trustee as depositary are not sufficient to defray the cost of erection and equipment of the Fox St. Louis Theatre Building and the carrying charges until the completion thereof, the Fox Theatres Corporation has agreed to pay promptly any such deficit.

Earnings: The principal executives of the Fox Theatres Corporation estimate that the annual gross income from the property to be leased, applicable to the payment of the charges under the net lease, will be \$1,339,850, and that the net profits, available for depreciation and Federal taxes, accruing to the Fox Theatres Corporation through the operation of the Fox St. Louis Theatre Building after operating expenses, taxes, insurance and rentals (including the annual net rental under the terms of the net lease of \$591,500), will be

#### Further Advantages in Having a Trustee

You could indicate in your will how much support to afford, to whom, for how long, also when and under what conditions capital sums should be paid over.

You could give the trustee as much discretion as you wish, enabling him to meet unforesceo emergencies.

If there is life insurance included, there is a double advantage in having both it and the estate trusteed, so that the heirs may have one source of income, instead of different amounts at odd times from various sources. The entire property thus has the benefit of unified control.

## Would They Have to Move Out If You Were Taken?

TOU may think not, with the amount of I property and life insurance you have. And still such an eventuality is not uncommon, even among those who are well provided. Wealth is fleeting unless securely anchored. The well-to-do widow easily may lose her inheritance.

Why not protect your heirs by trusteeship of the funds you leave them? That would safeguard the principal and assure income.

And it would be a great relief to your widow, even if financially experienced. She would have no worry over investments.

This company has specialized in trust service for nearly forty years; it bas had wide experience with a great variety of family situations; might be able to suggest ways and means of effectively providing for yours. Consultation with you or your attorney is cordially invited.

THE EQUITABLE TRUST COMPANY OF NEW YORK, Trust

The Indenture will provide for a semi-annual Purchase Fund commencing August 1, 1929, in amount sufficient to redeem 1½% of the total principal amount of Debentures of this series which shall have been theretofore issued, to be applied to the purchase of Debentures of this series if obtainable at or below the current redemption price or to the redemption thereof if not so obtainable. In lieu of cash the Company may tender Debentures of this series, at the current redemption price.

Information regarding the Company and this issue of Debentures is set forth in a letter from Mr. Thomas H. McInnerney, President of the Company, copies of which may be had from the undersigned upon request. Mr. McInnerney has summarised in part his letter as follows:

HISTORY AND BUSINESS

National Dairy Products Corporation, since its incorpora-tion in Delaware in December, 1923, has acquired (either directly or through subsidiaries) companies engaged in the milk, ice cream and dairy products business in many cities, including the following:

Chicago

Chapell Ice Cream Company, Inc.

Breyer Ice Cream Company, Inc.

Hydrox Ice Cream Company, Inc.

Chicago

The business of the Company and its subsidiaries includes the wholesale and retail distribution of milk, cream, butter and other dairy products, and the manufacture and whole-sale distribution of ice cream, beverages, condensed milk, butter, semi-solid buttermilk, dried buttermilk, milk powder, milk sugar, casein, and other milk by-products.

The consolidated balance sheet as at November 30, 1927, prepared from the books of the Company and its subsidiaries by Messrs. Price, Waterhouse & Co. (subject to completion of the company of the compa pletion of the examination now in progress), after giving effect to this financing and the transactions incident thereto, effect to this financing and the transactions incident thereto, shows consolidated net tangible assets of \$70,268,564.49, or equivalent to more than \$2,000 for each \$1,000 Debenture. The market value of the outstanding preferred and common stocks of National Dairy Products Corporation, based on current quotations, amounts to approximately \$110,000,000. SALES AND PROFITS

The combined net sales and net profits from operations of the Company and all its present subsidiaries (including sarnings during 1925 and 1926 of an additional business presently to be acquired), after all charges (including ample depreciation) except Federal income taxes and interest on consolidated funded debt and dividends on preferred stocks of subsidiary companies to be retired, and after deducting the proportion of profits applicable to minority common stock holdings of subsidiaries, but before interest on this issue of Debentures, as certified by Messrs. Price, Waterhouse & Co., have been as follows:

Net Sales defined above \$113,905,387.48 \$ 9,428,467.48 138,121,575.54 143,930,548.41 12,133,227.59 14,413,595.90

The corresponding figures for the year ended December 31, 1927, based on the figures as shown by the books to November 30, 1927 (subject to completion of the examination now in progress) and as estimated by the management for the month of December, are as follows:

1927 \$152,350,000.00 \$14,575,000.00 7.33

The annual average of such net profits for the 4 years ended December 31, 1927 amounted to \$12,637,572, or 6.87 times the interest requirements on this issue of Debentures. PURPOSE AND INDENTURE

These Debentures will be the direct obligations of the Company and will constitute its sole consolidated funded indebtedness presently to be outstanding in the hands of the public, except for certain indebtedness of subsidiaries, funds for the acquisition or retirement of which are to be provided from the proceeds of this issue. The balance of the proceeds will be used to acquire or retire the entire preferred stocks of subsidiaries, to pay in part for certain additional assets, and to increase working capital. Additional Debentures of this series or of other series may be issued subject to certain restrictions to be set forth in the Indenture. Certain terms and provisions of the Indenture may be modified with the consent of the holders of not less than 80% of the outstanding Debentures.

The Company has agreed to make application in due course to list these Debentures on the New York Stock Exchange. A portion of these Debentures has been reserved for exchange for subsidiary companies' funded debt and preferred stocks and to pay in part for certain additional assets. We offer the balance at

INSTALLMENT LXII. THE END OF THE FARNDALE MYSTERY.

Two men dashed forward from right and left in front iers. The sudden glare lit up the scowling face of Juan de Braganza, who, using brutal force flung Esmée violently inte Mrs. Sinclair's outstretched hands, and dropped his right hand to the grip of an automatic which had been thrust between waistcoat and shirt. But he hesitated. He was not quite sure which of his two nearest assailants was Arden. At that moment a shot rang out, and De Bragans fell. Sheldon, seeing that a short stubby man who had raced in front of him had a pistol raised, struck the fellow's arm with a life preserver. Evidently, the blow had tightened the would-be assassin's fingers, and the weapon went off, but the bullet lodged in De Braganza's throat. Indeed, being of the expanding variety, it nearly tore his

It is a sad fact that Mrs. Sinclair, when she recovered, demanded five thousand pounds a year for life as the price of her silence. It is almost demoralizing to learn that of her silence. Though poor, let us remain honest! Ring up Pucci's estaurant and order a decent dinner for four."

George Arliss has an article in Vanity Fair for February called "The Cough and the Drama"... And I note that Winthrop Ames, in advertising Mr. Arliss' Shylock, always tells of William Shakspere's "The Mericant of Venice." I suppose there is always the danger that, without the prenomenal specification, there is danger of the Manhattan public's confusing the comedy with something of like title by Thomas, or Seth, or Woodrow, or Calvin, or even Jethroe Shakspere.

The reason C. Aubrey Smith withdrew from "The Constant Wife" is that he is under bond to perform for Mr. Belasco in a piece by Edward Childs Carpenter named "The Bachelor Father."

BY HAZEL MOORE.

The Civic Orchestra of Chicago, 1923 edition, gave its first program of the season at Orchestra hall yesterday. Eric DeLamarter conducting.

Though this organization enters thus on its ninth season, it is doubtful if many charter members remain. With a constantly shifting personnel of young and eager symphonists, Mr. Stock and Mr. DeLamarter each year work wonders. Yesterday's program contained one complete symphony, the Franck D Minor and the "Phedre" overture of Massenet before the intermission. Later the orchestra exhibited itself as an accompanying body to an operatic aria sung by Mrs. Dennis Gent, contraits soloist of the day, and added the "Midsummer Night's Dream" music and the Sibelius tone poem known as "Finlandia," for good measure.

At the Studebaker theater, Dai Buell, planist, was heard in a group of French compositions, each requiring just the elements that Miss Buell just the elements that Miss Buell seems to possess, namely, a facile technic and an imaginative brain to direct light hands. The "Jeux d'Eau" of Ravel was particularly effective, as was Rameau's "Gavotte Variée." The novelty of the program was a set of modern tendency by Louis Vuillemin called "En Kerneo."

#### Beauty Treatments Help a Gal's Morale as Well as Her Face

In the state asylums of Illinois hey're experimenting with beauty extends around to the front. The parlors to aid insane women. The ion of the patients, if not improved, is at least calmer after the bray, cotton rep and jersey are good eauty treatments, it is reported.

"Bobbed hair or a facial treatment,"

The pattern, 3229, comes in sizes

State Alienist Dr. A. S. Hershfield an1, 2, and 4 years. Size 4 requires 1% ounces, "may or may not be the neans of curing insanity in women, personal appearance or ignore the only in one size. eauty aids so dear to a woman's

'As one of the many aids to help in the recovery of these patients, the state hospitals in Illinois have fully

equipped beauty parlors.

"These parlors contain the last word in all mechanical appliance used by cosmeticians in the world of the sane, and are in charge of skilled beauty specialists. Treatments are given to such patients as evince a lesire for them, but many inmates are taught the work. Many have bene skilled assistants.

"The Illinois state hospitals are leading in this new feature, and while statistics are not available at this time to show just how much mental improvement may be attributed to this means, nevertheless there is a decided change for the better in the and who act as assistants."

Apropes of this, I was wondering if there might not be a reform idea in establishing such beauty parlors in jails and houses of correction. I re-member some years ago I had occareleased from one of these institu ions. She was given ten cents carfare which was all the money she had n the world. I've forgotten what the harge against her was, but it wasn't

She stood with her hat in her hand and said: "If I had enough money to go and get my hair shampooed and marcelled and my nails manicured. I'd have courage to go and look for a decent job."

I staked her to the money. And she did get a job in a reputable place of employment. She was holding it two years later, after which time I lost

Yeah, a beauty treatment doe a woman's morale as well as to her face and her finger nails. Why ot to a sick mind?

#### TRIBUNE COOK BOOK

BY JANE EDDINGTON. Nuts and Marmalade. The mixture of sliced Brazil nuts, or

walnuts, or of some one of the nuts, with orange marmalade or one of the most agr sandwich spreads. This spread is usually used for the open sandwich, while the orange marmalade alone may be agreeable for such use and accept able day after day to many people. By adding the nuts and perhaps some candied fruit we change the look of the spread and may make it more attractive. For instance, we may add or a little chopped angelica, or both.

When we make these mixtures, blending them with the marmalade, or the honey, or even a rather thick plain

pancake, the recipe for which will presently appear, and found it most attractive with the prescribed filling of this type.

In mentioning this we are preparing the way for a description of the term "salpicon." It is a queer thing that and have taken the advantage of it is not not like most summer varieties that mature in hot gare late varieties that mature in hot weether. The clive crystal and Saxa tranks high as a valuable vegetable, and belongs in every home garden.

Plant breeders have found an interesting thing about the spinach plant and have taken the advantage of it in part of the list. The clive shaped radish has the sweetness of the early kind and is not hot like most summer varieties that mature in hot weather. The clive crystal and Saxa we called the control of the list.
